### Professional Experience

#### Webmaster

**Roxbury Auto Wreckers**, 364 W. Dewey Ave, Kenil, NJ 07847

Feb '06 – April '11  
800-452-9122

- Performed hardware maintenance and software upgrades on company computers including the Hollander Database workstation.
- Responsible for creation, maintenance, and upgrade of company websites. Reduced costs by moving sites to a lower-cost hosting company and self-hosting of photos used on eBay.
- Responsible for posting items for sale on eBay, Craigslist, Machinery Trader, Attachmart and other websites.
- Using HTML, maintained, created and updated web pages to keep inventory current, and to project a professional appearance in our eBay and Craigslist listings..
- Maintained inventory online by taking and editing photos of cars, heavy trucks, trailers, buses and heavy equipment to post on our websites and on eBay.
- Through research of equipment items, gained extensive knowledge of heavy equipment types, configuration, components, motors, drive trains, carriers, and values, and posted accurate information on line in our listings..
- Maintained Trailer Parts Inventory by finding the best vendor and ordering parts as needed.
- Processed all emails coming into site and redirected them to the appropriate party.
- Communicated with clients directly whenever the client needed photos or description of items available for sale.
- Created special web pages using HTML and JavaScript to enable export clients to view and access their invoices and Bills of Sale online.
- Additional duties included technical writing to address specific issues with clients, lawyers, and government agencies.

#### Owner

**tntplanet.com - Technical Computer Services**

1988 - Present  
Flanders, NJ

- Provide technical expertise to clients in the selection, configuration and upgrading PC hardware and software
- Provide Graphics support for flyers, signs, logos and websites using Freelance Graphics, Corel Draw, MS Office, Adobe Photoshop and PDF Creator, Open Office, MyLabels, and more.
- Create, Build, Host and Maintain websites for clients and non-profit organizations..
- Generated a \$12,000+ donation to the NWTF by selling donated turkey calls on eBay.
- Currently hosting webmaster for two non-profit organizations: New Jersey Arms Collectors Club ([njacc.info](http://njacc.info)), and the New Jersey State Chapter of the National Wild Turkey Federation ([nijnwtf.org](http://nijnwtf.org)) .

#### Retail Software Sales

EGGHEAD SOFTWARE

Jan. '93 – Aug. 98\*  
E. Hanover, NJ

- Conducted standard retail operations, cash register, opening, closing, making bank deposits, receiving inventory and restocking shelves.
- Assisted in closing several retail stores as Egghead moved from storefront sales to online mail order sales.

- Provided Expert advice on software selection to customers based upon their requirements and my knowledge of the product line.
- Provided technical support to customers in installation of software and hardware purchased at Egghead either in the store or via phone.
- Evaluated various software packages through use, in order to provide practical advice on our products to customers.

**Programmer/Graphic Arts**

Sept. 89 – July '90

HILTON SYSTEMS INC

Mt. Arlington, NJ

- Programming in C, Created applications to access Oracle database tables, process PCX image files and generate Mil-Spec Contract Data Requirements Lists (CDRLs) for military use.
- Generated Mil-Spec graphics with Lotus Freelance Graphics for use in Mil-Spec Documents

**C Programmer/Technician -Intern**

Sept 87 – June 1989

GOLDSTAR PRODUCTS, INC

Basking Ridge, NJ

- Using "C", created application programs for use in the development of a portable cellular phone based upon the Intel 8031 microprocessor. .
- Created and maintained a series of MS DOS batch files to provide a CASE-like environment for software development and testing. Using DOS batch files, created processes to edit, compile, link and execute C source code both on the host PC and on the ZAX 8031 emulator.
- Installed and maintained Novell Netware LAN to service IBM compatible PC XT's to 386 DX, and maintain computers and peripherals' including dot-matrix and HP LaserJet printers, and serial plotters.
- Configured, and installed hardware and software upgrades on all systems. Fabricated coax and parallel printer cables.

**Operations Shift Supervisor**
